

# NETWORK STATUS

CapRock Emergency is not in-network with any insurers. Fortunately, this **DOES NOT MATTER** because both State<sup>1</sup> and Federal laws<sup>2</sup> protect patients by requiring ALL insurers (other than Medicare, Medicaid and Tricare) to pay **full, in-network benefits** for emergency care provided at any licensed emergency room, such as CapRock Emergency. In other words, network status does not apply to emergency care provided at licensed emergency rooms in Texas.

Simply stated, for emergency care received at CapRock ER, **we accept all private insurances at your full, in-network rates.**

And since **we never “balance bill,”** it is our promise that **your out of pocket cost at CapRock will never be more** than at any other emergency room.
